Members

WHERE: University Center-
Harbor Room

Alumni working in
Actuarial Profession

UCSB Actuary Club:

We are an organization that brings actuarial students together to help one another and open the door to many more opportunities. More than a dozen employers come to campus each Fall to interview our students for summer internships and permanent positions. Our graduates have been hired by most top insurance corporations, including Farmers Insurance, Pacific Mutual, Fireman's Fund Insurance, Transamerica Life Companies, Franklin Templeton, Capital One, Towers Watson, Milliman and many others.

**Ian Duncan: Senior
Actuary / UCSB Professor**

&

**Kara Clark
MBA, FSA,
MAAA**

According to the Wall Street Journal, an Actuary is the second best profession out of the 200 studied. With a median salary of over \$80,000 a year and a steady demand for actuaries mean that plenty of excellent jobs are available even during tougher economic times.
